From the Sound to the Sign, from the Sign to the Sound was selected for EPARM 2018

Artistic Research at Jam Music Lab! We are proud of our teachers

One of our teachers, Irene Malizia, came up with her project about artistic research in music education „*From the Sound to the Sign, from the Sign to the Sound*“. The Project was selected for the **EPARM (European Platform for Artistic Research) Conference 2018**, which will take place at ESMAE in Porto, from March 22-24, 2018.

The topic of the conference deals with *the musical composition as an interactive tool in the music education and as an impulse for an "alternative" teaching method*. Irene Malizia will present her contribution in the plenary section *"The Learning and Teaching Platform - Discussing about the link between education and research"*

For further information on the conference see:
